Offers in the region of: £310,000

Oldfield Drive, Vicars Cross, Chester, CH3 5LN

A property with real presence and bucket loads of potential. 5 bedroomed property in the heart of a vibrant family neighbourhood, with side and rear extensions, spacious garden, garage and driveway. This is Oldfield Drive.

One of the first things noticeable about this home is its unusually large size, this home is one of the largest on its road and was proudly extended to the side and rear, we understand as far back as 1977!

We also highly recommend viewing this home, to appreciate both the size and potential with your own eyes.

Into the property, you approach the front door to an entry hallway, on the right is a spacious 21'9 lengthways lounge space, with double doors separating it from the rear facing open plan kitchen and dining area. To the side is a utility, downstairs W/C garage accessible through the rear integral door and furthest rear a room currently used as a workshop with side door access into the garden.

Upstairs there are five bedrooms in total, yes five! Suiting the modern day working style what most may see fit is four spacious bedrooms and an office. There is additionally two bathrooms on the upper floor, separated by a door which again has the potential to come through making one large bathroom suite.

Externally, the property has its own driveway which fits multiple vehicles on, side parking on the road is never a problem so there will be no issues at the moving in party! The front drive is also part lawned and bounded via greenery. The garden is again fenced off by its well maintained hedged boundaries, giving it a real private feel and not overlooked either as well as its healthy size proportions. There is a single garage which has its front garage door but also an integral rear door and is accessed from either end.

Features: No onwads chain | Five bedrooms | Large kitchen/dining area open plan | Spacious & private rear garden | Driveway for several cars | Garage | Freehold | EPC - C
